10

Dated 9-4-48

[Despatch Abstract.]

BUDGET - DEMAND XVII - PUBLIC HEALTH - Cut motion notices and
notes - Recorded -

Sub: Demand XVII - Public Health - Policy underlying the Demand.

The Demand under XVII Public Health is Rs.82.83 lakhs against Rs.90.97 lakhs in the Budget Estimate for 1947-48 and Rs.191-61 lakhs in the Revised Estimate for that year. From the Budget Memorandum for 1948-49 it will be seen that there are marked variations in the B.E. for 1948-49 compared with the R.E. for the previous year under the following items.

	B.E. 1947-48.	R.E. 1947-48.	B.E. 1948-49
(1) Public Health Establishments	22.08	20.80	21.57
(2) Grants for Public Health purposes	13.52	18.47	14.63
(3) Expenses in connection with epidemic Diseases	17.07	24.83	17.27
(4) Bacteriological Laboratories.	10.16	10.83	12.05
Works Sanitary works and Rural Water Supply	23.96	26.93	30.85

(1) PH. Establishments. The decrease in the R.E. for 1947-48 is mainly due to the deputation of Health Inspectors for plague duty and the debit of their pay and allowances to the minor head "Expenses in connection with epidemic diseases". This is partly offset by increased expenditure due to the revision of scales of pay of non-Gazetted subordinates and the payment of house rent allowances to some of them from 1st Jan. 1947.

The increase in the B.E. for 1948-49 is due to the provision for the training of health visitors and for an increase in the leave and epidemic leave reserve in the cadre of Health Inspectors and employment of additional staff in the office of the Director of Town Planning, Madras.

(2) Grants for Public Health purposes.

The increase in the R.E. for 1947-48 under this head is mainly due to provision for grants to the Madras Corporation for water supply and drainage schemes based on the progress of the works. The B.E. for 1948-49 provides for grants for water supply and drainage schemes in progress and for new works to be undertaken by the local bodies (including Madras Corporation) and for a grant to the Provincial Research Committee.

(3) Expenses in connection with epidemic diseases.

The increase in the R.E. for 1947-48 is mainly due to larger expenditure on measures for the prevention of plague in many of the districts and to the revision of the scales of pay of non-gazetted Govt. servants and payment of house rent allowances to some of them from Jan. 1947. The B.E. for 1948-49 provides for normal requirements and includes provision for two new schemes namely, introduction of anti-malarial measures in the new settler's colonies in Malabar Dt. and a scheme for the control of malaria in the Koya villages in the Polavaram Agency, West Godavari Dt.

Policy underlying the grant which Govt. make towards anti-malarial operations.

So far as anti-malarial measures are concerned the Govt. usually give local bodies if necessary one third grant towards the cost of the measures carried out by them. (e.g. Chittoor, Kurnool, Guntur Dt. Bd.) Usually grants are given only for one year for anti-malarial works involving recurring and non-recurring expenditure. In certain cases if a local body is not able to meet its share of 2/3 rds cost, more than one-third grant is sanctioned based on the financial position of the local body. If a local body is not in a position to meet any portion of the cost of the scheme, and if the scheme is considered imperative in Public interest the Govt., as a special case, undertake to meet the entire expenditure on the scheme from their own funds.

(e.g. 1/3th share in the case of Salem Dt. Bd.)

(Eg. 1) South Kanara Dt. Puttur Scheme & 2) Nellore Dt. Bd. scheme.

(Sd.)xxx.

8-3-48.

Bacteriological laboratories. The increase in the revised estimate for 1947-48 is due to the revision of scales of pay of non-gazetted subordinates and the payment of house-rent allowances to some of them from Jan. 1947 and to the provision for charges connected with the administration of the Drugs Act, 1940. The Budget Estimate for 1948-49 includes a full year's provision for charges in connection with the administration of the Drugs Act, 1940 and a sum of Rs. 1,50,000 for the manufacture of Sera and Vaccines in the King Institute Guindy.

(4) Transfer to and from the Fund for rural water supply.

A special fund for R.W.S. purposes was in existence, and it was abolished with effect from 1-4-'47. Subsequently in order to speed up R.W.S. works and cover greater areas the Hon'ble Premier ordered that a spl. fund of Rs. 1 crore should be constituted; and the Legislature also voted a token grant of Rs. 100/- for the purpose in September 1947, and orders actually constituting the Fund have since issued. Besides the spl. fund a sum of Rs. 15 lakhs is provided every year in the current revenues. The balance over Rs. 15 lakhs will be drawn from the spl. fund, and if any amount remains unspent out of the Rs. 15 lakhs from the current revenues, it will be added to the corpus of the special fund. Thus the net appropriation from the Demand for R.W.S. works is only Rs. 15 lakhs, and the balance viz. Rs. 11.93 lakhs under R.E. 1947-8 and Rs. 15.85 lakhs under B.E. for 1948-49 is to be drawn from the Spl. Fund of One crore referred to above. This is not the case with the provision of Rs. 23.96 lakhs in the B.E. for 1947-48. It was intended at the beginning of the year, on the abolition of the previous Special Fund for R.W.S., that all the amount required for R.W.S. works were to be found from the current revenues, and hence a larger provision, when compared to the net provision of Rs. 15 lakhs under R.E. for 1947-48 and B.E. for 1948-49 as shown above.
